EDUCATION

2019 - 2021

BIJU PATNAIK UNIVERSITY OF
TECHNOLOGY

- B.Tech in Computer Science
- CGPA: 8.2

2017

GHVM JHARSUGUDA, ODISHA

- Class XII | CGPA: 6.4

2015

PRABHUJEE EM SCHOOL, ODISHA

- Class XI | CGPA: 8.6

SKILLS

Frontend

- JavaScript, React, HTML, CSS, SCSS, Bootstrap, Tailwind

Frameworks

- Angular

State Management

- Redux, NgRx

Real-Time

- Socket.io, WebSocket

Tools & Others

- Git, Vite, REST APIs, Google APIs, Razorpay Integration

LANGUAGES

- English: Fluent
- Hindi: Fluent
- Odia: Fluent

ABOUT ME

Frontend Developer with 2+ years of experience in JavaScript, React, and Angular. Proven at building responsive web apps with real-time features and complex state management across domains like healthcare, construction, and government systems. Comfortable owning frontend modules end-to-end from design systems and dynamic forms to live chat and production bug-fixing.

WORK EXPERIENCE

Vedhas Technology Solutions

DEC 2023 - PRESENT

RTA e-NOC System (Dubai Government)

Dubai Infrastructure Clearance Platform

ANGULAR | NGRX

- Worked ~1 year on a Dubai government internal app for managing NOC applications for infrastructure projects handling NgRx store management, API integration, and backend data syncing.
- Resolved all frontend bugs independently for 4+ months after team reduction; owned the majority of the frontend solo.

FretBox / InternBox

Hostel Management SaaS

REACT | SOCKET.IO | REDUX | SCSS

- Built a full real-time chat system from scratch Socket.io integration (frontend + backend), file uploads, online/offline status, read receipts, and student-to-management request flows.
- Identified and resolved numerous pre-existing bugs across the platform alongside active feature development.

Thrivent / Rightwise Prep

US Ed-Tech Portal

REACT | VITE | SCSS

- Built a comprehensive design system covering colors, typography, forms, modals, dashboards, sidebars, and more; implemented all frontend pages including auth flows.
- Led frontend alongside a senior lead and co-worked with a junior intern.

Smart Health Assist

Healthcare Platform

REACT | REST APIS

- Built almost all UI pages appointment booking, medicine purchase, and real-time patient monitoring with partner/nurse data entry and per-patient report storage.

Amplify Infra

Construction Management App

REACT | REDUX | GOOGLE APIS

- Developed GPS-based attendance, travel allowance tracking, and floor-wise portion planning features.
- Architected complex multi-role dynamic forms across a heavily legacy codebase.
